## QUALITY AND ENVIRONMENTAL POLICY STATEMENT

Wall Colmonoy is a leading global materials engineering group of companies engaged in the manufacturing of Colmonoy® surfacing and Nicrobraz® brazing products, precision castings, coatings, and engineered components across aerospace, automotive, glass container, oil & gas, mining, energy and other industrial sectors.

### EUROPEAN HEADQUARTERS

Alloy Industrial Estate | Pontardawe, Swansea, Wales, United Kingdom SA8 4HL

Our VISION is to become a global **leader** in **metallurgical** technology, working in **partnership** with world-class customers in diverse sectors.

We deliver **innovative** products and solutions through an excellent **customer experience** to exacting quality standards. By **making metals work harder**, we contribute to a more **productive, efficient, cleaner world**.

Our POLICY is to conduct all business activities in a responsible manner, in order to meet our customer, stakeholder and all interested party expectations, to respect the environment and to minimising the environmental impact of our operations and our products through the adoption of sustainable practices and continuous improvement in Quality and Environmental performance.

- Ensuring effective lines of communication with our customers, workforce and suppliers to ensure our customers' requirements are fully understood at all levels of the company.
- Ensuring that our products comply with all the specified standards and applicable statutory and regulatory requirements by operating a Business Operating System that meets the requirements of ISO9001:2015, ISO14001:2015 and EN9100:2018 (AS9100D).
- Striving for excellence and Continuous Improvement of our products, service and performance of our Quality and Environmental Management system by the following means:
  - Carrying out management review of the effectiveness of the Management Systems, the continuing suitability of this policy and setting performance objectives at appropriate levels throughout the site.
  - Monitoring & Reporting - to monitor/audit quality & environmental performance and to report progress on Policy objectives and improvement targets on a regular basis.
  - Sustainable Development - to contribute to sustainable development by using energy, water and raw materials more efficiently, thus optimising our use of natural resources.
  - Involving the whole workforce in seeking to improve the quality of the products or service they provide.
  - Creating a workforce empowerment culture by means of personal development and a suitable working environment.
  - We strive to provide a performance culture which is challenging, meaningful and valued by our employees, stakeholders/interested parties, local community whilst taking care of the environment in which we work and live.

This policy has the full commitment of the Senior Management Team. This policy is to be communicated and understood throughout the company by displaying at strategic points around the site and implemented through the company Business Operating System.
